REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: the prior art does not teach or suggest a system for removing a cover from a medical instrument comprising a flexible cover configured to cover at least a portion of a medical instrument; an insertion element coupled proximate a first end of the flexible cover; a pair of substantially parallel perforations formed in the insertion element; and a portion of the insertion element between the pair of substantially parallel perforations are removable from the insertion element and a portion of the flexible cover is removable from the flexible cover when a force is applied to a portion of the insertion element between the pair of substantially parallel perforations. As pointed out in the arguments by Applicant, Kim does not teach or suggest an insertion element between a pair of substantially parallel perforations as claimed.

Claims 1-37 are allowable. The restriction requirement, as set forth in the Office action mailed on 12/27/05, has been reconsidered in view of the allowability of claims to the elected invention pursuant to MPEP § 821.04(a). **The restriction requirement is hereby withdrawn as to any claim that requires all the limitations of an allowable claim.** Claims 2, 4, 11, 13, 31 and 33 directed to a non-elected species are no longer withdrawn from consideration because the claim(s) requires all the limitations of an allowable claim.

In view of the above noted withdrawal of the restriction requirement, applicant is advised that if any claim presented in a continuation or divisional application is

Art Unit: 3739

anticipated by, or includes all the limitations of, a claim that is allowable in the present application, such claim may be subject to provisional statutory and/or nonstatutory double patenting rejections over the claims of the instant application.

Once a restriction requirement is withdrawn, the provisions of 35 U.S.C. 121 are no longer applicable. See *In re Ziegler*, 443 F.2d 1211, 1215, 170 USPQ 129, 131-32 (CCPA 1971). See also MPEP § 804.01.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
